Sabancı Ventures ("SV") is the corporate venture capital arm of Sabancı Holding. SV adopts global best practices and creates value for both parties with solid commercial partnership plans, leveraging the know-how, operational excellence, and global network of Sabancı Holding companies. SV also accepts the UN Principles for Responsible Investment (PRI)'s six principles as a guide for evaluating investment decisions.

As a corporate VC fund, Sabancı Ventures invests in post-revenue scale-ups and seeks solid synergies and value creation opportunities between its future portfolio companies and Sabancı Group companies. SV strives to

find exceptional founders with scalable business models and help them realize their global expansion potential. Typically, SV invests in post-seed to Series A stage companies, though it can also invest in later stage companies.
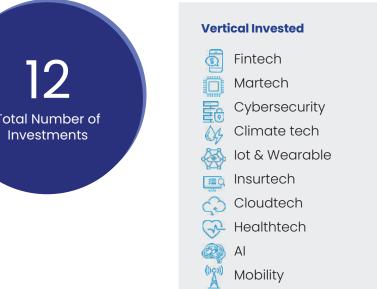

Sabancı Ventures acts as a "sensor" for Group companies to identify new growth areas, actively evaluating investment opportunities with innovative business models and/or cutting-edge technologies. SV focuses on burgeoning areas such as Internet of Things (IoT), artificial intelligence (AI) and big data, climate tech, insurtech, health tech, fintech, mobility, advanced materials, and cloud tech.

Sabancı Ventures has made direct corporate venture capital investments in 12 companies in five countries and has deployed over USD 12 million to date. Five of these investments were completed in 2023.

As a part of its overall CVC strategy, Sabancı Group uses several investment vehicles where the total number of direct investments reached 17+ companies and total investments exceeded USD 45 million between 2020 and 2023.
