Explanations	

As part of Sabancı Group's strategies for new economy-oriented growth, reinforcing the global footprint and developing the technologies of the future, Sabancı Holding has made a capital contribution of USD 166,000,000 to date in Sabancı İklim Teknolojileri A.Ş., a fully owned subsidiary incorporated in 2022 in order to invest in renewable energy and climate technologies.

Currently, the investment process for the establishment of a 272 MW solar power plant in the USA by Sabancı Renewables Inc., a fully owned subsidiary of Sabancı İklim Teknolojileri A.Ş., is proceeding as planned, and the plant is expected to be activated in the second quarter of 2024. Additionally, it has been decided to make additional capital contribution to Sabancı İklim Teknolojileri A.Ş. with an amount of Turkish Lira equivalent to USD 75,000,000 in order to finance investment projects, particularly new capacity investments in renewable energy in line with the growth plans abroad. Further developments will be made available to public.

In case of a discrepancy between the Turkish and English versions of this public disclosure statement, Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
