Explanations	

Our company and E.ON which established in Germany, that have 50-50 % share in Enerjisa Enerji A.Ş., have made an agreement about restructuring of Enerjisa Enerji A.Ş. and its subsidiaries. In this direction, it has been resolved to group electricity distribution and retail companies that have different dynamics under a parent company and energy generation, energy wholesale and natural gas wholesale companies under another parent company.

With this new strategic structuring in Enerjisa, the aim is to create two high potential, stronger companies.

In addition, public offering processes can be managed separately for these two parent companies in the future.

In contradiction between the Turkish and English versions of this public disclosure, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
