<b>Explanations</b>	

The capacity increase of Akhisar WPP which had been acquired on December 1, 2022 by Enerjisa Enerji Üretim A.Ş. (Enerjisa Üretim), whose shares representing 50% of the share capital are indirectly owned by Sabancı Holding, has been completed and its installed capacity was increased by 7 MW from 55 MW to 62 MW in line with the permit and approval of the Ministry of Energy.

With this capacity increase of Akhisar WPP, Enerjisa Üretim's total installed wind power capacity in its 8 power plants reached 403 MW and the total installed capacity of all facilities reached 3,799 MW.

Once the ongoing investments are completed and the capacity increases are deployed, Enerjisa Üretim will solidify its leading position as electricity generator in Turkish private sector by reaching an installed capacity of approximately 5,000 MW with a share of 60% renewables by 2026.

Further developments will be made available to public.
