<b>Explanations</b>	

In line with Sabancı Group's strategies for new economy-oriented growth and pioneering sustainability initiatives, Enerjisa Enerji Üretim A.Ş. (Enerjisa Üretim), whose shares representing 50% of the share capital are indirectly owned by Sabancı Holding, aims to strengthen its leading position in the renewables energy market in Turkey.

To reach above-mentioned goals; a contract has been signed by Enerjisa Üretim with Enercon Global GmbH and Enercon Rüzgar Enerji Santrali Kurulum Hizmetleri Ltd. Şti. for undertaking the investments and operating of Muğla and Balıkesir Region Wind Energy Renewable Energy Resource Area 2 (YEKA-2) project of 500 MW and Çanakkale and Aydın Region Wind Energy YEKA-2 project of 500 MW, of which the tender was previously won by Enerjisa Üretim. Thereby, 1,000 MW of wind power plants covering the YEKA-2 tenders will be implemented with a total investment of USD 1.2 billion within the scope of the agreement between Enerjisa Üretim and Enercon Group. It is aimed to gradually complete the mentioned 1,000 MW of YEKA-2 Project investments by the first quarter of 2026.

Once the above-mentioned investments are completed and the capacity increases are deployed, Enerjisa Üretim will solidify its leading position as electricity generator in Turkish private sector by reaching an installed capacity of approximately 4.7 GW with a share of 57% renewables.

Further developments will be made available to public.
