NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of presentation

2.1.1 Financial Reporting Standards

The Capital Markets Board of Turkey ("CMB") regulated the principles and procedures of preparation, presentation and announcement of financial statements prepared by the entities with the Communiqué No: XI-29, "Principles of Financial Reporting in Capital Markets" ("the Communiqué"). This Communiqué is effective for the annual periods starting from 1 January 2008 and supersedes the Communiqué No: XI-25 "The Financial Reporting Standards in the Capital Markets". According to the Communiqué, entities shall prepare their financial statements in accordance with International Financial Reporting Standards ("IAS/IFRS") endorsed by the European Union. Until the differences of the IAS/IFRS as endorsed by the European Union from the ones issued by the International Accounting Standards Board ("IASB") are announced by Turkish Accounting Standards Board ("TASB"), IAS/IFRS issued by the IASB shall be applied. Accordingly, Turkish Accounting Standards/ Turkish Financial Reporting Standards ("TAS/TFRS") issued by the TASB which are in line with the aforementioned standards shall be considered.

With the decision taken on 17 March 2005, the CMB has announced that, effective from 1 January 2005, for companies operating in Turkey and preparing their financial statements in accordance with CMB Financial Reporting Standards the application of inflation accounting is no longer required. Accordingly, the Holding did not apply IAS 29 "Financial Reporting in Hyperinflationary Economies" issued by the IASB in its financial statements for the accounting periods starting 1 January 2005.

The Group has prepared its consolidated financial statements within the framework of Communiqué XI, No: 29 and related promulgations to this Communiqué in accordance with CMB Financial Reporting Standards which is based on IAS/IFRS. The consolidated financial statements and the related notes to them are presented in accordance with the formats recommended and including the information required by the CMB.

Holding, its Subsidiaries and Joint Ventures registered in Turkey maintain their books of accounts and prepare their statutory financial statements ("Statutory Financial Statements") in TL in accordance with the Turkish Commercial Code ("TCC"), tax legislation and the Uniform Chart of Accounts issued by the Ministry of Finance, applicable Turkish insurance laws for insurance companies and banking law, accounting principles and instructions promulgated by the Banking Regulation and Supervising Agency for banks and accounting principles issued by the CMB for listed companies. The foreign Subsidiaries and Joint Ventures maintain their books of account in accordance with the laws and regulations in force in the countries in which they are registered. These consolidated financial statements are based on the statutory records, which are maintained under historical cost conversion, with the required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with the CMB Financial Reporting Standards.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.2 Adoption of New And Revised International Financial Reporting Standards

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2010.

IFRS 3 (revised), "Business Combinations" and consequential amendments to IAS 27, "Consolidated and separate financial statements", IAS 28, "Investments in associates", and IAS 31, "Interests in joint ventures", are effective prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009. The main impact of the adoption is as follows:

a) to allow a choice on a transaction-by-transaction basis for the measurement of non-controlling interests (previously referred to as 'minority' interests) either at fair value or at the non-controlling interests' share of the fair value of the identifiable net assets of the acquire.

b) to change the recognition and subsequent accounting requirements for contingent consideration.

c) to require that acquisition-related costs be accounted for separately from the business combination, generally leading to those costs being recognized as an expense in profit or loss as incurred.

d) in step acquisitions, previously held interests are to be remeasured to fair value at the date of the subsequent acquisition with the value included in goodwill calculation. Gain or loss arising from the re-measurement shall be recognized as part of profit or loss.

As the Group has adopted IFRS 3 (revised), it is required to adopt IAS 27 (revised), "consolidated and separate financial statements", at the same time. IAS 27 (revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value and a gain or loss is recognised in comprehensive income statement. Since the equities of the non controlling interests do not have negative balance, UMS 27 (revised) standard does not have an effect in the current period. There is no transaction like having share left in the entity resulting from losing the control power; no transaction is present regarding the shares with any control power.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.2 Adoption of New And Revised International Financial Reporting Standards (Continued)

a) Standards, amendments and interpretations to existing standards effective in 2010 but not relevant to the Group

IFRIC 17, "Distributions of non-cash assets to owners", effective for annual periods beginning on or after 1 July 2009. This interpretation is not currently applicable to the Group, as it has not made any non-cash distributions.

IFRIC 18, "Transfers of assets from customers", effective for transfer of assets received on or after 1 July 2009. This interpretation is not relevant to the Group, as it has not received any assets from customers.

"Additional exemptions for first-time adopters" (Amendment to IFRS 1) was issued in July 2009. The amendments are required to be applied for annual periods beginning on or after 1 January 2010. This amendment is not relevant to the Group, as it is an existing IFRS preparer.

IFRS 2, "Share-based Payments – Group Cash-settled Share Payment Arrangements" is effective for annual periods beginning on or after 1 January 2010. This standard is not currently applicable to the Group, as the Group does not have share-based payment plans.

Improvements to International Financial Reporting Standards 2009 were issued in April 2009. The improvements cover 12 main standards/intepretations as follows: IFRS 2 Share-based Payments, IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, IFRS 8 Operating Segments, IAS 1 Presentation of Financial Statements, IAS 7 Statement of Cash Flows, IAS 17 Leases, IAS 18 Revenue, IAS 36 Impairment of Assets, IAS 38 Intangible Assets, IAS 39 Financial Instruments: Recognition and Measurement, IFRIC 9 Reassessment of Embedded Derivatives, IFRIC 16 Hedges of Net Investment in a Foreign Operation. The effective dates of these improvements vary for each standard but most are effective from 1 January 2010.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.2 Adoption of New And Revised International Financial Reporting Standards (Continued)

b) The standards, interpretations and amendments that have been issued but are not effective and have not been early adopted

IFRS 1 (Amendments) ***First-time Adoption of IFRS – Additional Exemptions***

Amendments to IFRS 1 which are effective for annual periods on or after 1 July 2010 provide limited exemption for first time adopters to present comparative IFRS 7 fair value disclosures.

IFRS 9 '*Financial Instruments: Classification and Measurement*'

In November 2009, the first part of IFRS 9 relating to the classification and measurement of financial assets was issued. IFRS 9 will ultimately replace IAS 39 Financial Instruments: Recognition and Measurement. The standard requires an entity to classify its financial assets on the basis of the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset, and subsequently measure the financial assets as either at amortized cost or at fair value. The new standard is mandatory for annual periods beginning on or after 1 January 2013. The Group has not had an opportunity to consider the potential impact of the adoption of this standard.

IAS 24 (Revised 2009) '*Related Party Disclosures*'

In November 2009, IAS 24 Related Party Disclosures was revised. The revision to the standard provides government-related entities with a partial exemption from the disclosure requirements of IAS 24. The revised standard is mandatory for annual periods beginning on or after 1 January 2011. The Group has not yet had an opportunity to consider the potential impact of the adoption of this revised standard.

IAS 32 (Amendments) ***Financial Instruments: Presentation*** **and IAS 1** ***Presentation of Financial Statements***

The amendments to IAS 32 and IAS 1 are effective for annual periods beginning on or after 1 February 2010. The amendments address the accounting for rights issues (rights, options or warrants) that are denominated in a currency other than the functional currency of the issuer. Previously, such rights issues were accounted for as derivative liabilities. However, the amendment requires that, provided certain conditions are met, such rights issues are classified as equity regardless of the currency in which the exercise price is denominated. The Group has not yet had an opportunity to consider the potential impact of the adoption of this amendment to the standard.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.2 Adoption of New And Revised International Financial Reporting Standards (Continued)

b) The standards, interpretations and amendments that have been issued but are not effective and have not been early adopted (continued)

IFRIC 14 (Amendments) ***Pre-payment of a Minimum Funding Requirement***

Amendments to IFRIC 14 are effective for annual periods beginning on or after 1 January 2011. The amendments affect entities that are required to make minimum funding contributions to a defined benefit pension plan and choose to pre-pay those contributions. The amendment requires an asset to be recognized for any surplus arising from voluntary pre-payments made. The Group does not expect any impact of the adoption of this amendment on the financial statements.

IFRIC 19 '*Extinguishing Financial Liabilities with Equity Instruments*'

IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. IFRIC 19 addresses only the accounting by the entity that issues equity instruments in order to settle, in full or part, a financial liability. The Group has not yet had an opportunity to consider the potential impact of the adoption of this amendment to the standard.

Annual Improvements, May 2010

Further to the above amendments and revised standards, the IASB has issued Annual Improvements to IFRSs in May 2010 that cover 7 main standards/intepretations as follow: IFRS 1 First-time Adoption of International Financial Reporting Standards; IFRS 3 Business Combinations; IFRS 7 Financial Instruments: Disclosures; IAS 1 Presentation of Financial Statements; IAS 27 Consolidated and Separate Financial Statements; IAS 34 Interim Financial Reporting and IFRIC 13 Customer Loyalty Programmes. With the exception of amendments to IFRS 3 and IAS 27 which are effective on or after 1 July 2010, all other amendments are effective on or after 1 January 2011. Early adoption of these amendments are allowed. The Group has not yet had an opportunity to consider the potential impact of the adoption of these amendments to the standards.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.3 Basis of consolidation

a) The consolidated financial statements include the accounts of the parent company, Hacı Ömer Sabancı Holding A.Ş., its Subsidiaries, Joint Ventures and Associates (collectively referred to as the "Group") on the basis set out in sections (b) to (f) below. The financial statements of the companies included in the scope of consolidation have been prepared at the date of the consolidated financial statements, and are prepared in accordance with CMB Financial Reporting Standards as explained in Note 2.1.1. The result of operations of Associates, Joint Ventures and Subsidiaries are included or excluded in these consolidated financial statements subsequent to the effective date of acquisition or date of sale, respectively.

b) Subsidiaries are companies in which the Holding has the power to control the financial and operating policies for the benefit of the Holding, either (a) through the power to exercise more than 50% of the voting rights relating to shares in the companies as a result of shares owned directly and indirectly by itself and/or certain Sabancı family members and companies whereby the Holding exercises control over the voting rights of the shares held by them, or (b) although not having the power to exercise more than 50% of the voting rights, through the exercise of an actual dominant influence over the financial and operating policies.

The table below sets out all consolidated Subsidiaries and shows the proportion of ownership interest and the effective interest of the Holding in these subsidiaries at 30 September 2010:

Subsidiaries	Direct and indirect ownership interest by the Holding and its Subsidiaries %	Ownership interest shares held by Sabancı family members %	Proportion of ownership interest %	Proportion of effective interest %
Advansa	100,00	-	100,00	99,93

Tursa	99,52	-	99,52	99,45
Yünsa	57,88	11,50	69,38	57,88

(*) The effective ownership of Akbank in Holding share portfolio has been increased to 40,78% from 36,80% as a result of Akbank and Aviva shares which held in Aksigorta's portfolio, and Akbank shares which are held in Exsa's portfolio injected as capital in kind to Holding via spin-off process.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.3 Basis of consolidation (Continued)

The table below sets out all consolidated Subsidiaries and shows the proportion of ownership interest and the effective interest of the Holding in these subsidiaries at 31 December 2009:

Subsidiaries	Direct and indirect ownership interest by the Holding and its Subsidiaries %	Ownership interest shares held by Sabancı family members %	Proportion of ownership interest %	Proportion of effective interest %
Advansa	100,00	-	100,00	99,93
AEO	70,29	-	70,29	70,29

Tursa	99,51	-	99,51	98,46
Yünsa	59,37	11,50	70,87	58,80

The balance sheets and statements of income of the Subsidiaries are consolidated on a line-by-line basis and the carrying value of the investment held by the Holding and its Subsidiaries is eliminated against the related shareholders' equity. Intercompany transactions and balances between the Holding and its Subsidiaries are eliminated on consolidation. The cost of, and the dividends arising from, shares held by the Holding in its Subsidiaries are eliminated from shareholders' equity and income for the period, respectively.

Financial statements of subsidiaries, whose financial position at 30 September 2010 and result of operations for the nine-month period ended 30 September 2010 are insignificant to the overall consolidated financial statements, are not consolidated on the grounds of materiality. Such subsidiaries are classified as available for sale equity securities in these consolidated financial statements (Note 5.b).

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.3 Basis of consolidation (Continued)

c) Joint Ventures are companies in respect of which there are contractual arrangements through which an economic activity is undertaken subject to joint control by the Holding and one or more other parties. The Group's interest in Joint Ventures is accounted for by way of proportionate consolidation. By this method, the Group includes its share of the assets, liabilities, income and expenses of each Joint Venture in the relevant components of the financial statements. The table below sets out the Joint Ventures and shows the proportion of ownership interest and effective interest of the Holding in these Joint Ventures at 30 September 2010:

Joint Ventures	**Direct and indirect ownership interest by the Holding and its Subsidiaries %**	**Proportion of effective interest %**
Akçansa	39,72	39,72
Avivasa (*)	49,83	49,83

Enerjisa	50,00	50,00
ETS	50,00	50,00
EED	50,00	50,00
Olmuksa	43,73	43,73

(*) As a result of Akbank and Aviva shares held in Aksigorta's portfolio, and Akbank shares held in Exsa's portfolio, injected as capital in kind to Holding via spin-off process, the total Avivasa shares previously held by Aksigorta by 49,83% are currently included in Holding's share portfolio.

The table below sets out the Joint Ventures and shows the proportion of ownership interest and effective interest of the Holding in these Joint Ventures at 31 December 2009:

Joint Ventures	**Direct and indirect ownership interest by the Holding and its Subsidiaries %**	**Proportion of effective interest %**
Akçansa	39,72	39,72
Avivasa	49,83	49,83

Enerjisa	50,00	50,00
ETS	50,00	50,00
EED	50,00	50,00
Olmuksa	43,73	43,73

Sabancı family members do not have any interest in the share capital of Joint Ventures.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.3 Basis of consolidation (Continued)

d) Investments in Associates are accounted for by the equity method of accounting. These are entities over which the Holding generally has between 20% and 50% of voting rights, or over which the Holding has significant influence, but which it does not control. Unrealised gains that result from intercompany transactions between the Holding and its Associates are eliminated on consolidation, whereas unrealised losses are eliminated unless they do not address any impairment. Equity accounting is discontinued when the carrying amount of the investment in an Associate reaches zero, unless the Holding has incurred obligations or guaranteed obligations in respect of the Associates. Such Associates are accounted at fair value if the fair value can be determined objectively; otherwise, they are accounted at cost (Note 8 and Note 2.e).

Associates whose financial position at 30 September 2010 and result of operations for the nine month period ended 30 September 2010 are insignificant to the overall consolidated financial statements are not accounted for by the equity method of accounting. Such Associates are classified as available for sale equity securities (Note 5.b).

The table below sets out all Associates and shows the total interest of the Holding in these associates at 30 September 2010 and 31 December 2009:

Associates	**Proportion of effective interest by the Holding %**
Philsa Philip Morris Sabancı Sigara ve Tütün San. ve Tic. A.Ş. ("Philsa")	25,00
Philip Morris Sabancı Pazarlama Satış A.Ş. ("Philip Morrissa")	24,75

Sabancı family members do not have any interest in the share capital of Associates.

e) Other investments in which the Holding and its Subsidiaries, have interest below 20%, or over which the Holding does not exercise a significant influence, or which are immaterial, are classified as available for sale. Available for sale investments that do not have a quoted market price in active markets and whose fair value cannot be measured reliably are carried at cost less any provision for diminution in value. Available for sale investments that have a quoted market price in active markets and whose fair values can be measured reliably are carried at fair value (Note 5.b).

f) The results of Subsidiaries are included or excluded from consolidation regarding to their effective dates of acquisition and disposal, respectively.

The portion of the profit or loss and net assets of Subsidiaries attributable to equity interests that are not owned, directly or indirectly through the Subsidiaries, by the parents, is presented as non controlling interest. Certain Sabancı family members, Sabancı Vakfı, a charitable foundation established by Sabancı family members and Akbank Tekaüt Sandığı, a retirement foundation for Akbank employees, have interests in the share capital of certain Subsidiaries and Associates. In these consolidated financial statements their interests are treated as non controlling interest and are not included in the Holding's net assets and profits attributable to shareholders of the Holding.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1.4 Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

2.1.5 Comparatives and restatement of prior year financial statements

In order to allow for the determination of the financial situation and performance trends, the Group's consolidated financial statements have been presented comparatively with the previous period. The Group presented the consolidated balance sheet as of 30 September 2010 comparatively with the consolidated balance sheet as of 31 December 2009 and presented the consolidated statement of income, statement of cash flows and statement of change in equity for the period 1 January- 30 September2010 comparatively with the period 1 January - 30 September 2009.

2.2 Changes in Accounting Policies

Significant changes in accounting policies or material errors are corrected, retrospectively by restating the prior period consolidated financial statements. There has been no change in the accounting policies related to the interim period 1 January – 30 September 2010.

2.3 Summary of Significant Accounting Policies

The condensed consolidated interim financial statements for the nine month period ended 30 September 2010 have been prepared in accordance with IAS 34, the standard on the preparation and presentation of interim period financial statements. The accounting policies used in the preparation of the condensed interim consolidated financial statements for the period ended 30 September 2010 are consistent with those used in the preparation of consolidated financial statements for the year ended 31 December 2009. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the consolidated statements for the year ended 31 December 2009.

2.3.1 Financial Instruments

In accordance with IAS 39, in the banking segment the Group classifies its investments in debt and equity securities in the three following categories; assets held at fair value through profit or loss, held-to-maturity and, available-for-sale assets. Debt securities with fixed maturities, where management has both the intent and the ability to hold to the maturity are classified as "held-to-maturity financial assets". Investment securities intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in the interest rates, exchange rates or equity prices, or the client's servicing activity are classified as "available-for-sale financial assets". The appropriate classification of investments is determined at the time of the purchase and re-evaluated by management on a regular basis.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.1 Financial Instruments (Continued)

All investment securities are initially recognised at cost. Transaction costs are included in the initial measurement of debt securities. Financial assets classified as available-for-sale are subsequently remeasured at fair value if the fair values can be reliably measured.

Investments in which the Holding has an interest below 20% that do not have a quoted market price in active markets, for which other methods of making a reasonable estimate of fair value are clearly inappropriate or unworkable and whose fair value cannot be measured reliably are carried at cost less any provision for diminution in value.

Unrealised gains and losses arising from changes in the fair value of securities classified as available-for-sale are deferred in the equity until the financial asset is sold, collected or otherwise disposed of. Unrealised gains and losses arising from changes in the fair value of available for sale debt securities are the differences between the fair value of such securities and their amortised cost at the balance sheet date. When available for sale securities are sold, collected or otherwise disposed of, related deferred gains and losses in equity are released to the income statement.

Held to maturity investments are carried at amortised cost using the effective yield method.

Financial assets at fair value through profit or loss are securities, which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or included in a portfolio in which a pattern of short-term profit making exists. Financial assets at fair value through profit or loss are initially recognised at cost and subsequently re-measured at fair value based on quoted bid prices. All related realised and unrealised gains and losses are included in the income statement.

Interest received from financial assets at fair value through profit or loss is recognised in the income statement as part of interest income and dividend received is recognised in the income statement as part of dividend income. All purchases and sales of financial assets at fair value through profit or loss that require delivery within the time frame established by regulation or market convention are recognised at the trade date,which is the date that the banks commit to purchase or sell the assets.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.2 Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation in the consolidated financial statements (Note 9). Depreciation is provided on property, plant and equipment on a straight-line basis. The depreciation periods for property, plant and equipment, which approximate the economic useful lives of such assets, are as follows:

	Years
Land improvements	4-50
Buildings	18-50
Machinery and equipment	2-25
Motor vehicles	2-15
Furniture and fixtures	3-10

Gains or losses on disposals of property, plant and equipment are determined with respect to the difference between collections received and carrying amounts of property, plant and equipment and are included in the related income and expense accounts, as appropriate.

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Fair value less costs to sell is the amount obtainable from the sale of an asset less the costs of disposal. Value in use is the present value of the future cash flows expected to be derived from an asset plus the residual value of the related assets.

The regular repair and maintenance costs are charged to the income statements during the financial period in which they were incurred. Costs to property plant and equipment are included in the asset's carrying amount or recognised as a separate asset as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

2.3.3 Intangible assets

Intangible assets consist of licences, computer software, development costs, purchased technology, mining rights, acquired rights of use, and other identifiable rights. Intangible assets are initially accounted at cost and amortised using the straight-line method over an estimated useful life that does not exceed 20 years (Note 10). The amortisation of mining rights commences when the extraction begins.

Customer relations and agreements acquired in business combination are recognised at fair value at the acquisition date. Costumer relations and agreements are amortised using the straight-line method over their estimated useful life of 27 years and carried at cost less accumulated amortisation and impairment (Note 10).

2.3.4 Non-current assets held for sale and discontinued operations

Non-current assets held for sale (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction, not through continuing use. These assets may be a component of an entity, a disposal group or an individual non-current asset. The sale of assets held for sale is expected to be occur within the following 12 months from the balance sheet date.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.4 Non-current assets held for sale and discontinued operations (Continued)

A discontinued operation is a component of an entity that either has been disposed of, or that is classified as held for sale, and: (a) represents a separate major line of business or geographical area of operations; (b) is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or (c) is a subsidiary acquired exclusively with a view to resale.

Non-current assets (or disposal groups) are classified as assets held for sale and stated at the lower of carrying amount or fair value. If fair value is below the carrying value of asset, the related impairment is accounted for expense in consolidated income statement.

2.3.5 IFRIC 12 - Service concession arrangements

IFRIC 12, provides guidance on the accounting of public-to-private service concession arrangements by operators.

An arrangement within the scope of IFRIC 12 typically involves a private sector entity (an operator) constructing an infrastructure used to provide a public service or upgrading it, operating and maintaining that infrastructure for a specified period of time.

The Group accounts the amount that is received or will be received due to electricity distribution services at fair value of the service. This amount is recorded as a financial asset. The Group accounts the financial asset considering the cash basis given by the grantor or at the direction of the grantor associated with the electricity distribution services. The amount that should be paid by the grantor or at the direction of the grantor is accounted as a receivable in accordance with IAS 39 "Financial Instruments: Recognition and Measurement".

2.3.6 Shareholders' equity

In the restatement of shareholders' equity items, the addition of funds formed due to hyperinflation such as the revaluation value increase fund in share capital is not considered as a contribution from shareholders. Additions of legal reserves and retained earnings to share capital are considered as contributions by shareholders. In the restatement of shareholders' equity items added to share capital the capital increase registry dates or the payment dates are considered. In the restatement of share premiums, the payment dates are considered (Note 13).

The capital investment adjustment under shareholders' equity represents the Holding shares held by the subsidiaries. In the consolidated financial statements the shares held by the subsidiaries are accounted for under equity as a debit entry to the share capital by the share proportion of the subsidiary.

Revaluation fund included in the value increase funds is related to the value increase at the date of the transaction of the net assets owned by the Group before the sale transaction. Since the significant part of the amounts included in revaluation funds are related with the assets subject to amortisation, the revaluation funds are accounted for by transferring the related revaluation fund to the retained earnings during the amortisation period or the disposal period of the aforementioned assets.

2.3.7 Financial liabilities and borrowing costs

Financial liabilities are recognised initially at the proceeds received, net of transaction costs incurred.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.7 Financial liabilities and borrowing costs (continued)

Financial liabilities are subsequently measured at amortised cost using the effective yield method. Any difference between proceeds, net of transaction costs, and the redemption value is recognised in the income statement as financial expense over the period of the borrowings.

International Accounting Standard No 23 "Borrowing Costs" was revised on 29 March 2007 by the International Accounting Standards Board. The revised IAS 23 is effective at 1 January 2009, yet voluntary early transition to the application right is reserved. The Group opted for early adoption and changed accounting policy, choosing the policy envisaged in IAS 23 related to borrowing costs at 1 January 2007. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset in the period in which the asset is prepared for its intended use or sale. All other borrowing costs are charged to the income statement when they are incurred.

2.3.8 Deferred tax

Deferred income tax is provided, using the liability method, for all temporary differences arising between the tax base of assets and liabilities and their carrying values for financial reporting purposes. Currently enacted tax rates are used to measure deferred income taxes.

Deferred income tax liabilities are recognised for all taxable temporary differences, whereas deferred income tax assets resulting from deductible temporary differences are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilised (Note 16).

2.3.9 Loans and advances to customers and provision for loan impairment

Loans originated by providing money directly to the borrower or to a sub-participation agent at draw down are categorised as loans originated and are carried at amortised cost using the effective yield method. Costs incurred due to obtaining guarantees for originated loans are not considered as transaction costs and are charged to the income statement. Funds provided directly to the banks are recognized as due from banks and classified such as time or demand deposits.

A credit risk provision for loan impairment is established if there is objective evidence that receivables are not collectible. The amount of the provision is the difference between the carrying amount and recoverable amount.The recoverable amount is the present value of expected cash flows, including the amount recoverable from guarantees and collateral, discounted based on the interest rate at inception.

The provision recorded during the period is charged against the profit for the period. Loans and receivables that cannot be recovered are written off and charged against the allowance for loan losses. Such loans and receivables are written off after all the necessary legal proceedings have been completed and the amount of the loan loss is finally determined. Recoveries of amounts previously provided for are treated as a reduction from the provision for loan losses for the period.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.10 Revenue

Banking

Interest income and expense are recognised in the income statement for all interest-bearing instruments on an accrual basis using the effective yield method based on the actual purchase price until, in management's estimates and judgment, collection becomes doubtful. Interest income includes coupons earned on fixed income securities and accrued discount on treasury bills (Note 4.e).

Commission income and fees for various banking services are recorded as income at the time they affect the transactions to which they relate.

Insurance

Life:

Premium income represents premiums accrued on policies issued during the period, adjusted by the reserve for unearned premiums for annual life policies, during the period (Note 4.e).

Non-Life:

Premium income represents premiums on policies written during the period, net of cancellations, as adjusted by the reserve for unearned premiums.

Other segments

Revenues are recognised on an accrual basis at the time deliveries or acceptances are made, the amount of the revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Group, at the fair value of the consideration received or receivable. Net sales represent the invoiced value of goods shipped less sales returns and commission and excluding sales taxes. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The difference between the fair value and the nominal amount of the consideration is recognised as interest income on a time proportion basis that takes into account the effective yield on the asset.

2.3.11 Foreign currency transactions

Functional currency

Items included in the financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to that entity. The consolidated financial statements are presented in Turkish Lira, which is the functional currency of the Holding.

Foreign currency transactions and balances

Income and expenses arising in foreign currencies have been translated at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies have been translated into Turkish Lira (TL) at the exchange rates prevailing at the balance sheet dates.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.3.11 Foreign currency transactions (Continued)

Exchange gains or losses arising from the settlement and translation of foreign currency items have been included in the consolidated income statement.

Foreign Group Companies

The results of Group undertakings using a measurement currency other than Turkish Lira are first translated into Turkish Lira by using the average exchange rate for the period. The assets and liabilities of such Group undertakings are translated into Turkish Lira by using the closing rate at the balance sheet date. Differences arising on retranslation of the opening net assets of such Group undertakings and differences between the average and year-end rates are included in translation reserve as a separate item in the shareholders' equity.

2.3.12 Segment reporting

A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments. A geographical segment is a distinguishable component of an enterprise that is engaged in providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

A reportable segment is a business segment or a geographical segment identified based on the foregoing definitions for which segment information is required to be disclosed. A business segment or geographical segment should be identified as a reportable segment if a majority of its revenue is earned from sales to external customers and its revenue from sales to external customers and from transactions with other segments is 10% or more of the total revenue, external and internal, of all segments; or its segment result, whether profit or loss, is 10% or more of the combined result of all segments in profit or the combined result of all segments in loss, whichever is the greater in absolute amount; or its assets are 10% or more of the total assets of all segments.

The Group has selected business segments in a manner consistent with the reporting provided to the chief operating decision maker. Based on the internal reporting as the Group's risk and returns are affected by the differences between the produced goods and rendered services, industrial segments are determined for the segment reporting purposes. Geographical segments have not been disclosed in these consolidated financial statements on the grounds of materiality as the operations of the Group in geographical areas other than Turkey are not reportable geographical segments individually when compared with the overall consolidated financial statements.

Operating segments are reported in a manner consistent with the reporting provided to the chief operating decision maker. The chief operating decision-maker is responsible for the decisions related to the allocation of resources to the segments and assessment of performance of segments.

2.4 Critical accounting estimates and assumptions

The preparation of consolidated financial statements in conformity with CMB Financial Reporting Standards requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current event and actions, actual results ultimately may differ from those estimates.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.4 Critical accounting estimates and assumptions (continued)

Estimates are regularly reviewed, related corrections are adjusted and accounted for related period income statement. If changes in the accounting policies are related to only one period, they are applied in the current year; if they are related to the future periods, they are applied both in current and future periods.

NOTE 3 - BUSINESS COMBINATIONS

The business combinations between the period 1 January - 30 September 2010 are as follows:

On 9 February 2010 Çimsa, a subsidiary of the Group, acquired 60% shares of the Med.Con Srl which is established in Italy for a consideration of EUR 3.551. The difference between acquisition value and fair value of the acquired net assets of TL 3.313 has been provisionally accounted for as goodwill (Note:11).

Carrefour, a joint venture of the Group, on 1 July 2010 for TL 39.811 bought 99.99% shares of Alpark. The purchase price is the difference between the fair values of assets purchased with the TL 48.647 recorded as goodwill. Goodwill in the consolidated financial statements the effect of this operation is TL 18.865 (Dipnot 11).

The business combinations between the period 1 January - 30 September 2009 are as follows:

The transaction related with the injection of Akbank and Aviva shares which held in Aksigorta's portfolio, and Akbank shares which are held in Exsa's portfolio, as capital in kind to Holding via spin-off process has been approved in the Exraordinary General Assembly on 4 January 2010 and the shares with a nominal value of TL 140.403.931 have been registered by CMB and Trade Registery on 12 January 2010.

As a result of the spin-off transaction, Çimsa, a subsidiary of the Holding has participated to the share capital of Holding by 1,06%. This transaction is accounted for under equity as capital investment adjustment.

Restricted Reserves

The legal reserves consist of first and second reserves, appropriated in accordance with the Turkish Commercial Code (TCC). The TCC stipulates that the first legal reserve is appropriated out of statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the Holding's paid-in share capital. Under the TCC, the legal reserves can only be used to offset losses and are not available for any other usage unless they exceed 50% of paid-in share capital

Furthermore, to be entitled to the exemption for sale of participation shares and property, 75% of related gain is required to be held in a fund account in the liabilities and it must not be withdrawn from the entity for a period of five years. The details of restricted reserves mentioned above are as follows:

NOTE 13 – EQUITY (continued)

Dividend Distribution

Based on CMB Decree No. 02/51, dated 27 January 2010, there is no mandatory minimum profit distribution requirement for the quoted entities at the stock exchange for profits arising from operations in 2009 (2008: 20%). Regarding the dividend distribution for the current and following years, the entities are to distribute their profits for the current and following years under the scope of CMB Communiqué No. IV-27, their articles of association and their previously publicly declared profit distribution policies. In regards to the profit distribution, in accordance with the decision of the General Assembly, the distribution can be made as cash or as bonus shares or as a combination of a certain percentage of cash and bonus shares. It is also permitted to retain this amount in the Company reserves.

Furthermore, Group companies that are obliged to prepare consolidated financial stataments based on the related decision of General Assembly, are permitted to calculate net distributable profits based upon the net income for the period presented on consolidated financial statements that have been prepared within the framework of Communiqué XI, No: 29.

In accordance with the above explanations for the Communiqué No:XI-29, the composition of the Holding's shareholders' equity, which is considered as the basis for dividend distribution is as follows:

NOTE 16 - TAX ASSETS AND LIABILITIES

	30 September 2010	31 December 2009
Corporate and income taxes payable	726.945	870.362
Less: prepaid taxes	(395.771)	(667.614)
Total taxes payable	**331.174**	**202.748**

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

The Corporate Tax Law was amended as of 13 June 2006 with Law No 5520. The majority of the clauses of Law No 5520 are effective as of 1 January 2006. The corporation tax rate of the fiscal year 2009 is 20% (2008: 20%). Corporation tax is payable at a rate of 20% on the total income of the Holding after adjusting for certain disallowable expenses, corporate income tax exemptions (participation exemption, and investment incentive, etc) and corporate income tax deductions (like research and development expenditures deduction). No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey, or resident corporations are not subject to withholding tax. Otherwise, except from these corporations' dividends subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as a profit distribution and thus does not incur withholding tax.

Corporations calculate corporate tax quarterly at the rate of 20% on their corporate income and declare it until the 10th day and pay it on the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations is credited against the annual corporation tax liability. The balance of the advance tax paid may be refunded or used to set off against other liabilities to the government.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns by the 25th of the fourth month following the close of the financial year to which they relate.

Tax returns are open for five years from the beginning of the year that follows the date of filing during which time the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Under the Turkish taxation system, tax losses can be carried forward to offset against future taxable income for up to five years. Tax losses can not be carried back to offset profits from previous periods.

There are numerous exemptions in the Corporate Tax Law concerning the corporations. Those related to Group are as follows:

NOTE 16 - TAX ASSETS AND LIABILITIES (Continued)

Exemption for gains on subsidiaries

Dividend income from participation in shares of capital of another full fledged taxpayer corporation (except for dividends from investment funds participation certificates and investment partnerships shares) are exempt from corporate tax.

Preferential right certificate sales and issued premiums exemption

Gains from issued premiums derived from the disposal of sales at nominal values during incorporations and the capital increase of joint stock companies are exempt from corporate tax.

Exemption for gains on participation in foreign subsidiaries

The participation income of corporations participating in 10% or more of the capital of a limited liability or joint stock company which does not have its legal or business centre in Turkey (except for corporations whose principal activity is financial leasing or by investment of marketable securities) for at least one year until the date of the income is generated and transferred to Turkey until the date of the filing of the corporate income tax return of the fiscal year in which the income is generated is exempt from corporation tax subject to those subsidiaries being subject to corporate income tax, or alike, in their country of legal residence or business centre at the rate of at least 15% (the corporate income tax rate applicable in Turkey for those companies whose principal activity is financial assurance or insurance).

Exemption for sale of participation shares and property

75% of the gains derived from the sale of preferential rights, usufruct shares and founding shares from investment equity and real property which have remained in assets for more than two full years are exempt from corporate tax. To be entitled to the exemption, the relevant gain is required to be held in a fund account in the liabilities and it must not be withdrawn from the entity for a period of five years. The cost of the sale has to be collected up until the end of the second calendar year following the year the sale was realised.

Brokerage houses and real estate companies who are dealing with the trading and the leasing of the real estate can not benefit from this exemption.

Exemption for investment incentive

The investment incentive, which has been applied for many years and calculated as 40% of property plant and equipment acquisitions exceeding a certain amount, was annulled with the Law No, 5479 dated 30 March 2006, However, in accordance with the temporary Law No, 69 added to the Income Tax Law, corporate and income taxpayers can offset the investment incentive amounts present as of 31 December 2005, which could not be offset against taxable income in 2005 and:

a) investments to be made after 1 January 2006 in the scope of the certificate regarding the investments that began in the scope of additional articles 1, 2, 3, 4, 5 and 6 of Income Tax Law No: 193 before it was repealed with the Law No, 4842 dated 9 April 2003, and

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated. Currencies other than TL are expressed in thousands unless otherwise indicated.)

NOTE 16 - TAX ASSETS AND LIABILITIES (Continued)

b) investment incentive amounts to be calculated in accordance with legislation effective at 31 December 2005 related to investments which exhibit a technical and economic and integrity and which were started prior to 1 January 2006 in the scope of Income Tax Law repealed 19th article, only against the income related to the years 2006, 2007 and 2008, in accordance with the legislation at 31 December 2005 (including provisions related to tax rates),

The Constitutional Court abolished the provisions of Temporary Article 69 of the Income Tax Law regarding the time limitation to the investment incentive in its meeting held on 15 October 2009, and published the minutes of the relevant meeting on its website in October 2009. The decision of the Constitutional Court on the cancellation of the time limitation for investment incentive for the years 2006, 2007 and 2008 came into force with its promulgation in the Official Gazette, dated 8 January 2010, and thereby the time limitation regarding investment incentive was removed.

The phrase "only 2006, 2007 and 2008" in the temporary 69. Clause of the Income Tax Law No. 193 in Constitutional Court's decision, 2009/144, published in the Official Gazette on 8 January 2010, is abolished. The usage of investment incentive exception and 5th clause of Law No. 6009 which was published in the Official Gazette No. 27659 on 1 August 2010, were redesigned. According to the new arrangement, to be applied onto the 2010 calendar year income, while determining the tax assessment, investment incentive exception that will be subject to deducted amount should not exceed 25% of the income for the year of interest. Corporation tax will be calculated with respect to the current tax rate based on the remaining income.

NOTE 16 - TAX ASSETS AND LIABILITIES (Continued)

Deferred taxes

The Group recognizes deferred income tax assets and liabilities based upon temporary differences arising between their financial statements as reported under CMB Financial Reporting Standards and their statutory tax financial statements. These differences usually result from the recognition of revenue and expenses in different reporting periods for CMB Financial Reporting Standards and tax purposes, carry forward tax losses and investment incentive exceptions.

Deferred income taxes are calculated on temporary differences that are expected to be realized or settled based on the taxable income in coming years under the liability method using a principal tax rate of 20%.

At 30 September 2010 the Group has not recognized deferred income tax assets over carry forward tax losses in the amount of TL 247.586 which can be offset against future taxable profits for a period of five years (31 December 2009: TL 341.377). As of 30 September 2010 the amount of the carry forward tax losses and the last fiscal periods in which they can be utilized are as follows:

NOTE 21 - NATURE AND LEVEL OF RISKS DERIVED FROM FINANCIAL INSTRUMENTS

Foreign Exchange Risk

The Group is exposed to foreign exchange risk through the impact of rate changes on the translation of foreign currency assets and liabilities to local currency. These risks are monitored and limited by analysing foreign currency position. The Group aims to lower foreign exchange risk arising from assets and liabilities by using swap and forward derivative instruments.

The difference between the assets and liabilities of Akbank both denominated in foreign currency is defined as the "Net Foreign Currency ("FC") position" and is the exposure to foreign currency risk. Another dimension of the foreign exchange risk is the change in the value of the foreign currencies themselves within the net FC position (cross rate risk). The Bank keeps the amount exposed to foreign exchange risk within the limits determined by the Risk Management Committee. The Risk Management Committee monitors the general economic conditions and developments in the markets and sets new limits when necessary. These limits are set and monitored separately for the net FC position and for the cross rate risk. When necessary swap and forward contracts are used as a tool to hedge the foreign exchange risk.

The Group is exposed to foreign exchange risk arising primarily from the EUR, USD and GBP.

Foreign currency denominated assets and liabilities held by the Group before consolidation eliminations at 30 September 2010 and 31 December 2009 terms of TL are as follows:

	30 September 2010	31 December 2009
