Explanations	

Enerjisa Enerji Üretim A.Ş. (Enerjisa Üretim), whose shares representing 50% of the share capital are indirectly owned by Sabancı Holding, has acquired all of the shares of Akhisar RES Enerji A.Ş. (Akhisar WPP), a company operating wind power plant with an installed capacity of 55 MW since 2011, in an effort to strengthen its leading position in the renewables energy market in Turkey. The acquisition of all shares in Akhisar WPP by Enerjisa Üretim has been completed as of December 1, 2022.

Additionally, the approvals of Ministry of Energy and Natural Resources have been granted for a total installed capacity of 80 MW, 65 MW of which is wind power and 15 MW is hybrid solar power in the Erciyes Wind Power Plant (Erciyes WPP). At Erciyes WPP, 12 turbines with a total installed capacity of 65 MW and hybrid solar power plant with an installed capacity of 15 MW were deployed and electricity generation has been started.

Together with the completion of Akhisar WPP and the Erciyes WPP investments, Enerjisa Üretim has increased its installed capacity of wind power to 332 MW in its 5 wind power plants. With the completion of the YEKA-2 projects of 1,000 MW, which were previously announced to public and whose investment process is still ongoing, it is expected to increase the installed wind power capacity to 1,332 MW and the share of renewable energy in the total portfolio to 57% by 2026.

In case of a discrepancy between the Turkish and English versions of this public disclosure statement, Turkish version shall prevail.
